### 3. Instalación de Visual Studio 2022 Community.

Nos dirigimos al siguiente link para la descarga: [IDE de Visual Studio 2022:](https://visualstudio.microsoft.com/es/downloads/)  
[herramienta de programación para desarrolladores de software \(microsoft.com\)](https://visualstudio.microsoft.com/es/downloads/)

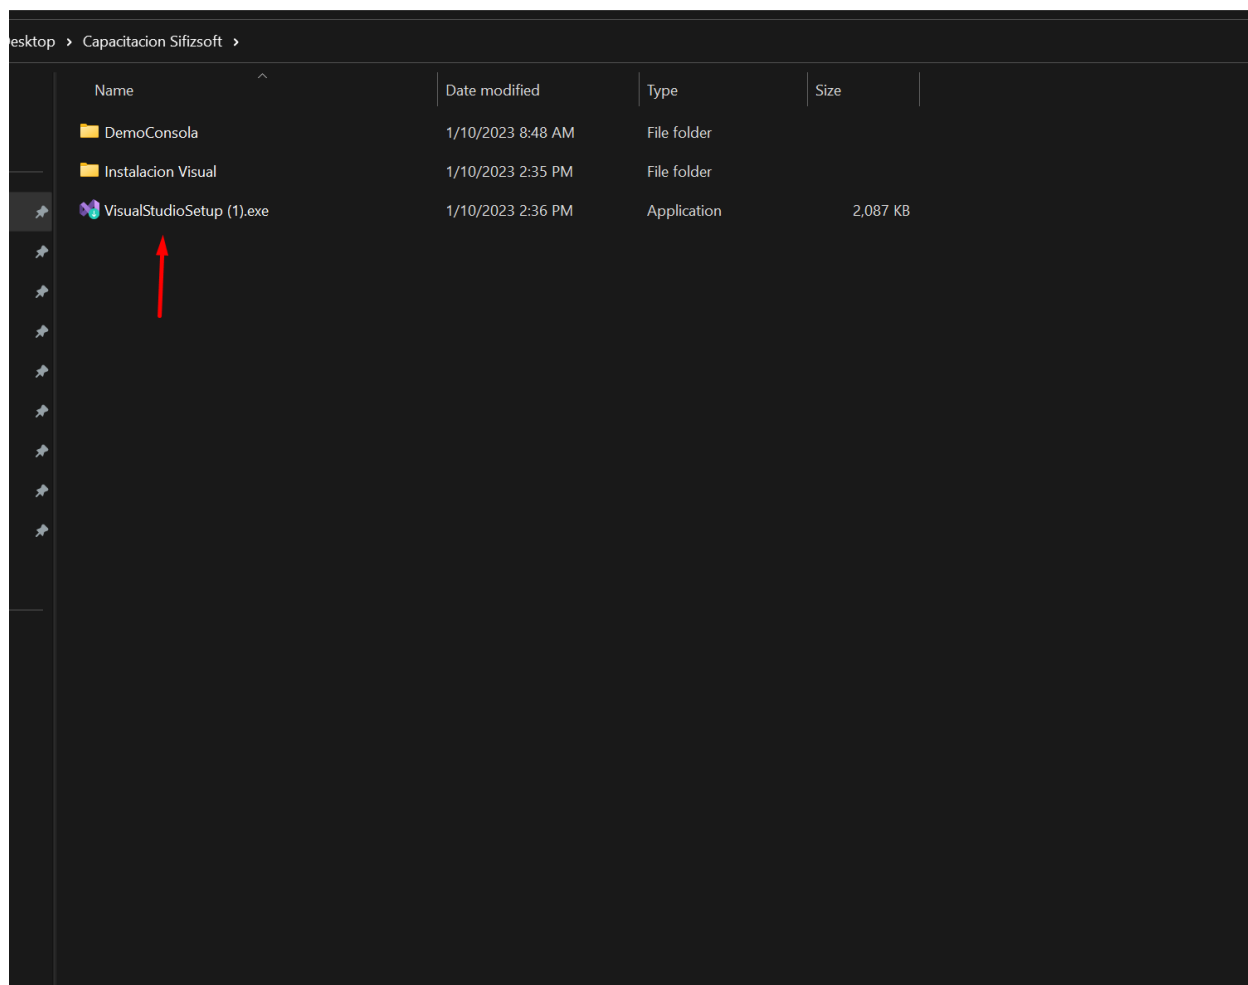

Damos click en descargar la versión Community

Esperemos que empiece la descargar y guardamos el archivo en la PC.

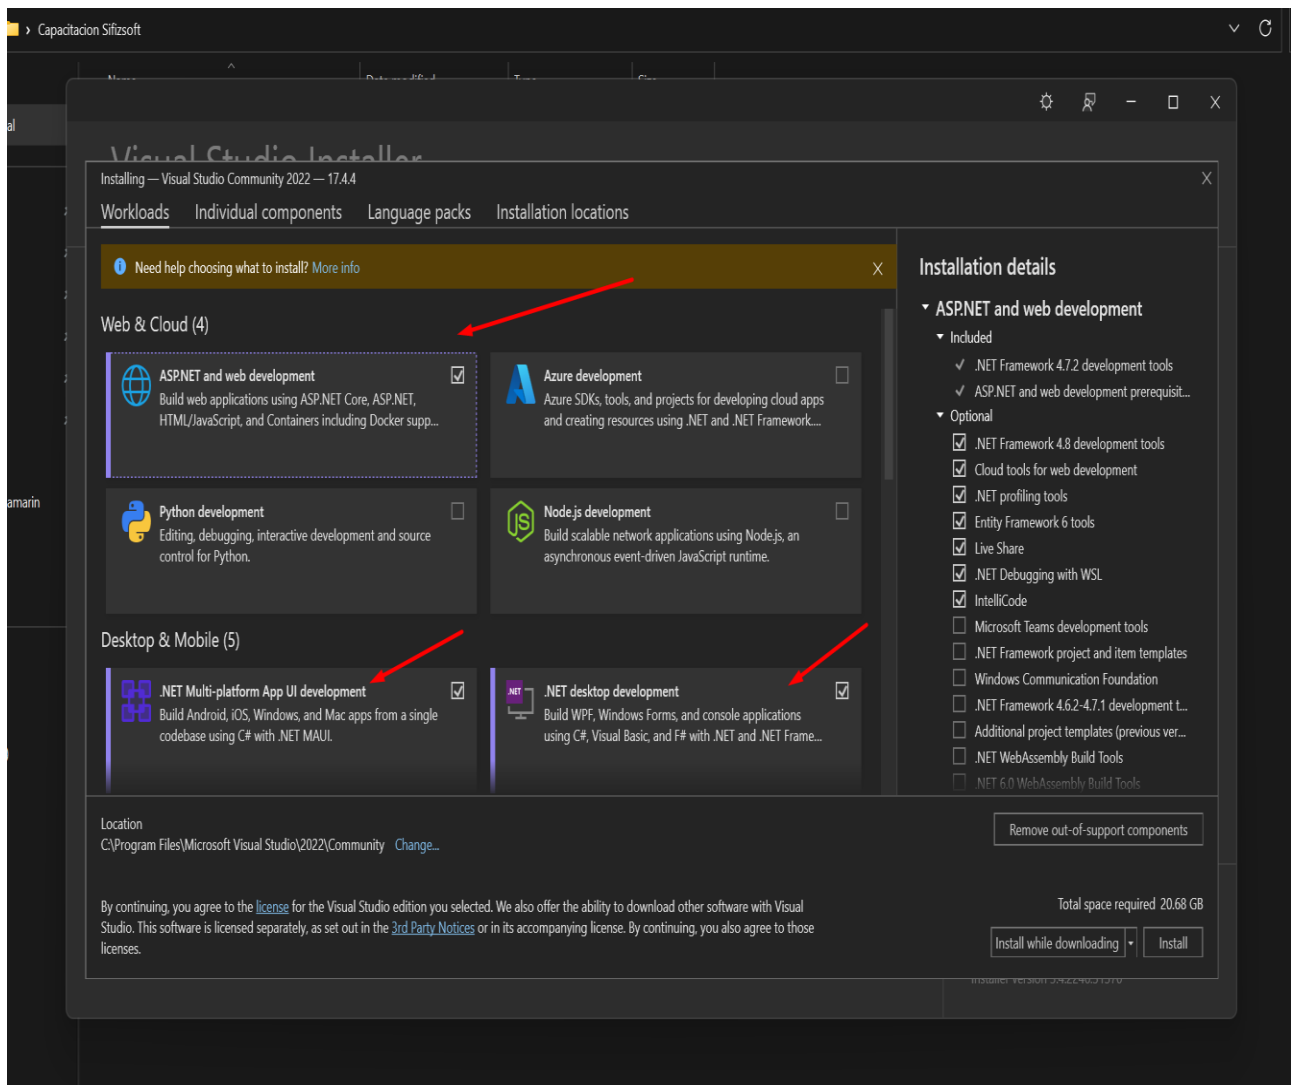

Una vez guardado el instalador le damos doble click para empezar la instalación.

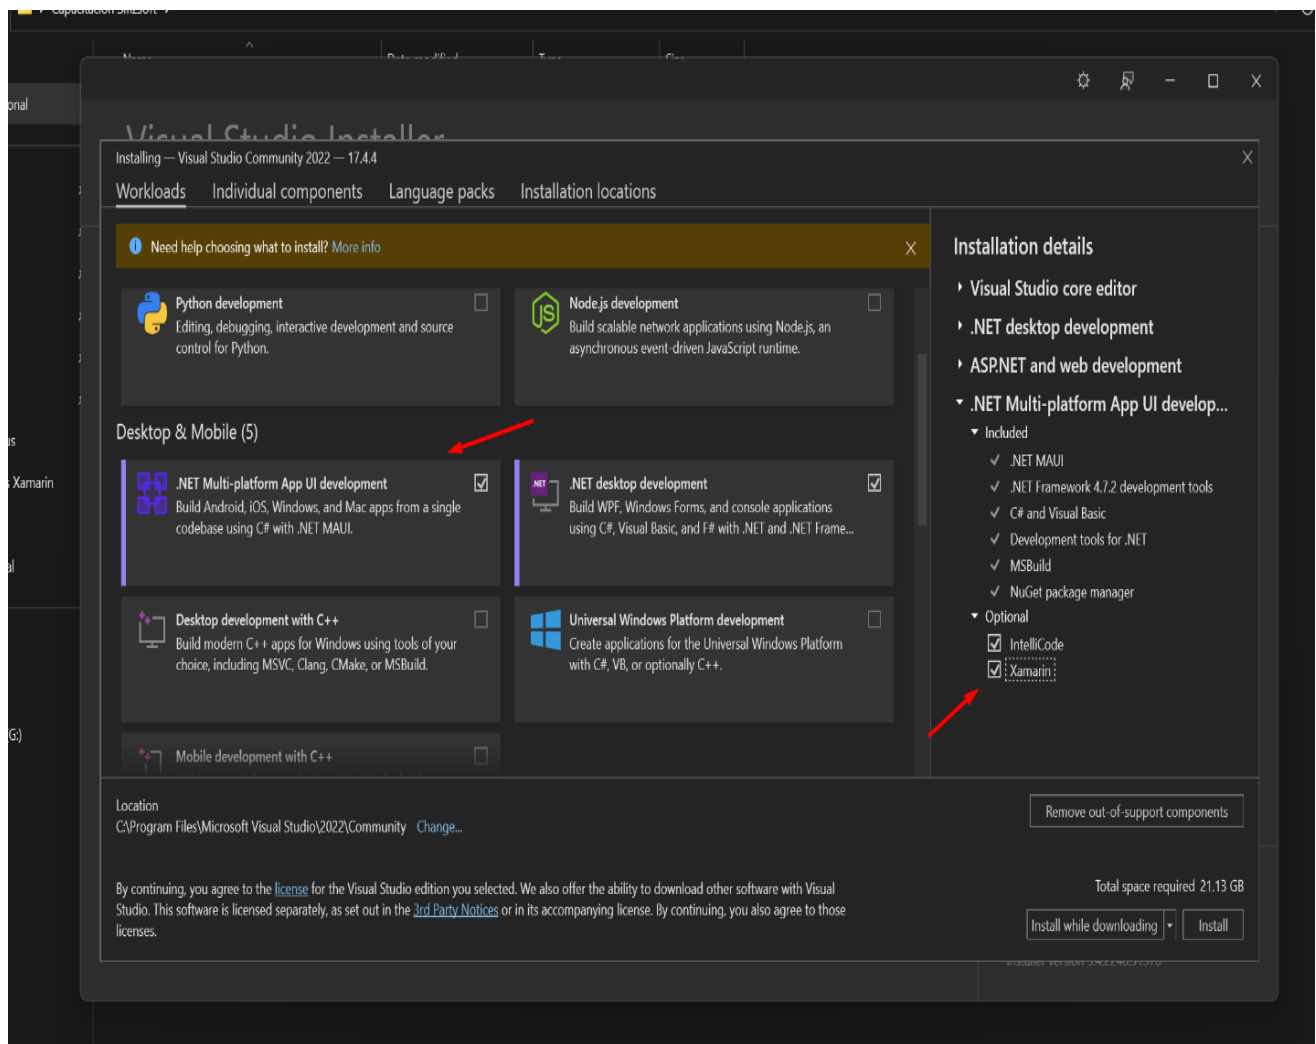

En la ventana de instalación escogemos los workloads siguientes:

- ASP.NET and web development
- .NET Multiplatform App UI development
- .NET desktop development

Cuando pongamos el visto en el workload de .NET Multiplatform App UI development debemos asegurarnos de que este marcado en la parte izquierda el componente de Xamarin como se ve a continuación.

Una vez seleccionado todo le damos al botón “Install” ubicado en la parte inferior derecha y esperamos que termine la instalación.
